## **262. INDEX**

## **266. DELIVERY RATES**

PLEASE NOTE: All prices in this brochure are recommended retail prices excluding VAT and including VAT. We try our best to ensure all images, descriptions and prices are accurate, if you see something in here that doesn't look right, please let us know and we'll make sure we amend it as soon as possible. Errors and omissions expected (E&OE) is a phrase used to reduce legal liability for potentially incorrect or incomplete information supplied in a contractually related document such as a quotation or specification. Whilst we try our best not to make errors, if you do spot a pricing error, you will still need to pay the correct price. Pricing within this brochure may be subject to change.

As you browse this brochure, please note: Due to the nature of natural stone and terracotta, there will always be colour variation from stone to stone, along with chips and other organic blemishes. Allowances should also be made for size and thickness – particularly so with our more rustic products. These features are an intrinsic part of natural materials, adding beauty, charm and character that will be unique to your home.

The colour of our stone and tiles can vary slightly from the images in this brochure, due to natural variation in stone batches and the limitations of photography and print. To see more images and to order samples, please visit [capietra.com](http://capietra.com)

Ca' Pietra is a Ca' Pietra Group Limited brand, Stonebridge House, Nursteed Road, Devizes, Wiltshire SN10 3DY.

# SURFACES THAT INSPIRE

A curated world of stone and  
tile to shape every space

At Ca' Pietra, we believe every surface tells a story. Our world of stone and tile is a place where centuries-old marble meets cutting-edge ceramic, and where every piece is chosen to spark inspiration.

Within these pages, you'll find a remarkable breadth of surfaces, each carefully curated to ignite ideas and elevate interiors and exteriors. From the warmth of natural limestone and marble to the vivid hues of decorative and glazed ceramics, our collection celebrates both timeless tradition and trend-setting design.

Think of this directory as a guide on your design journey – a sourcebook for discovering materials that speak to your style. In that spirit, we invite you to explore, imagine and let each tile or stone help you tell a new story in every space.

# SAMPLE THE POSSIBILITIES

Tile and stone samples delivered to you – making decisions tactile and easy.

Design is a tactile journey and that's why we make sampling effortless. With our sample service, you can see and feel our tiles and stone in your own space before making any decision.

We offer three types of samples to help bring our products to life - ideal for client presentations, showroom browsing or specifying on the go.

Order your samples online at [CAPIETRA.COM/ORDERING-SAMPLES](https://www.capietra.com/ordering-samples) or email [SALES@CAPIETRA.COM](mailto:SALES@CAPIETRA.COM), and we'll deliver them directly to your door with a swift turnaround. It's a hands-on preview that lets you hold options in hand and compare colours, finishes and patterns up close.

If you need to experience more, just ask. For larger projects or special requirements, we're happy to provide bigger sample pieces or boards on request. Flexibility is all part of the service, whether you want to observe how a mosaic catches the light or gauge the scale of a large-format slab, we're here to help.

#### 1. CUT TILE SAMPLES

10 x 15cm or smaller.

Free of charge (limit 6 per customer).

#### 2. FULL TILE SAMPLES

#### 3. 30 X 40CM SAMPLES

For larger-format stone and porcelain.

#### 4. MOSAIC SWATCH SAMPLE

A small piece of a full-sized mosaic sheet, mounted on a cardboard backing.

# A NEW WAY TO EXPLORE

A fresh look and smarter tools – our new website is designed to inspire and simplify your journey.

Welcome to the new **capietra.com** – a digital experience reimagined for the way you work and create. With its inspiring new look and intuitive navigation, our website puts the world of Ca' Pietra at your fingertips, making it easier than ever to discover the perfect surfaces for any project.

**Smarter search and filtering** – Quickly sort products by colour, material, size, finish and more.

**Interactive Room Visualiser** – See tiles and stone in real rooms, in real time.

**Updated Trade Partner Map** – Easily locate our partners and showrooms, with improved filtering.

Whether you're browsing for inspiration or specifying for a project, our revamped website is built to support your journey at every step. It's all about making your experience with Ca' Pietra as seamless, creative and enjoyable as the designs you'll bring to life.

# SHOWROOM & STUDIO SUPPORT

**From the shop floor to the design studio, we're here to help bring your vision to life.**

At Ca' Pietra, we work closely with a nationwide network of partners—from retailers showcasing our curated collections in-store to design professionals specifying tile and stone for bespoke projects. Our national account managers and project consultants are on hand across the UK to provide expert advice, tailored support and the tools you need to succeed.

For our retail partners, that means dedicated merchandising, in-store training and product storytelling that helps you inspire customers and drive sales. For interior and exterior designers, architects and contractors, our Ca' Pietra Artisans team offers hands-on specification support, custom solutions and seamless delivery—ensuring every detail reflects your design intent.

Wherever you sit in the design journey, our team is here to champion your work. Considered, collaborative, and committed to your success.

## Dedicated Support

A dedicated Account Manager will regularly visit to spend time with you and your team. We use these meetings to help support you in specifying Ca' Pietra; sharing everything from new product launches, to product and aftersales training, display and merchandising opportunities.

## Resources

We are committed to creating inspiring Ca' Pietra areas within your showroom to truly showcase our stone and tiles. For a full overview of all the merchandising options available, see our Retailer Resources guide.

## Training

We know how important it is to have in-depth training, which is why we invite you to visit our Ca' Pietra head-office, to experience everything we have to offer. We can also share our training schedules with your team, which covers everything from how to specify our tiles to technical information about natural stone.

The background is a close-up of a white marble surface with intricate, dark grey and brown veining. A curved, polished stone element, possibly a piece of marble or a different stone, runs diagonally across the middle. In the bottom right corner, a portion of a copper ring with a textured, scale-like pattern is visible.

# CARVING YOUR STORY INTO STONE

# CA' PIETRA

ARTISANS

## **Bespoke stonework, handcrafted in Wiltshire**

No two projects are ever the same, and Ca' Pietra Artisans exists to celebrate that uniqueness. Through this bespoke stone fabrication service, we transform your ideas into one-of-a-kind pieces made just for you.

Our hand-selected slab collection forms the foundation of many of our most bespoke projects. Whether it's a richly veined marble for a vanity or a softly tumbled limestone for a kitchen island, we hold a library of in-stock slabs ready to be shaped to your specification. Pair with our fabrication studio and your ideas are shaped into reality.

For Bespoke Enquiries contact  
[artisans@capietra.com](mailto:artisans@capietra.com)

# CURATED COLLECTIONS

## **Foundation Collection**

From the raw beauty of natural stone to the precision of porcelain and the character of our decorative tiles, this section explores the foundations of Ca' Pietra. These core collections are stocked and available for delivery within three working days, offering versatile solutions for every surface, inside and out.

## **Portare**

Expressive tiles for every home. The Portare collection brings you the essential foundation tiles for any project. Think good value, cost-effective tiles, but bang on-trend and in stock for quick delivery.

## **Studio Collection**

Brings a design-led edge to decorative tiling. From hand-finished glazes to bold patterns and playful palettes, each collection is created in house and made to last.

## **Atelier**

A curated edit of specialist stone, sourced for its rarity, movement or materiality. These are surfaces with presence - expressive, refined and crafted for standout spaces.

## **Slab Collection**

At the heart of our projects is our hand selected slab collection, featuring everything from richly veined marbles to softly tumbled limestones, held in stock and ready to be shaped to your specification.

For a deeper dive into our capabilities, our Bespoke Slab brochure showcases the full scope of what's possible.

Wychwood Tumbled 60 x Random x 1.5cm

# INTERIOR STONE

From natural limestone and marble to terracotta and terrazzo, our stone collection celebrates the beauty and diversity of natural and composite materials. Rich in texture and quietly expressive, each piece is chosen for its enduring character, bringing authenticity, depth and timeless appeal to every interior.

LIMESTONE, SANDSTONE & SLATE. 18

MARBLE. 48

TERRACOTTA. 62

TERRAZZO. 64

COMPOSITE STONE. 66

Please remember that natural stone is just that - natural; so variation and blemishes are to be expected, as is the need to seal and maintain the material. We have built up a large collection of photography over the years, so head to our website at [capietra.com](http://capietra.com) for more images of any of our beautiful natural stones, and be sure to order samples before placing your final order. It is important to make sure your installer has the know-how to work with natural products.

# PORTLAND CLASSIC

LIMESTONE - AGED

ATELIER  
COLLECTION

Quarried in Dorset, Portland is a clean, fine-textured, creamy-white stone with few markings. With our proprietary Artisan Aged™ finish, you can replicate the light aging of floors found in stately homes. Elegant, rather than rugged.

# TRUSLOE

## LIMESTONE - SEASONED

The tones may be soft and muted, but the stone is as hard as nails – virtually indestructible, in fact. The natural riven face of the stone is smoothed off, then 'seasoned' to give the appearance of a time-worn, country house floor.

## MARBLE - HONED

A luxurious marble with a wonderfully sleek appearance that makes it irresistibly tactile. Its colour palette combines a soft mixture of brown and pink, with delicate undertones of grey and mauve. It is a great stone for modern interiors that require a subtle injection of colour and warmth.

TERRACOTTA - RECLAIMED

FORMAT (CM)	SKU	SOLD BY	£M <sup>2</sup> EX VAT	£M <sup>2</sup> INC VAT
Approx 15 x 15 x 1.5-3	7013	0.022m <sup>2</sup>	£210.00	£252.00

## NOTES

Suitable for interior floors, sealing required.

Crafted from history, our reclaimed terracotta tiles arrive in their raw, unrefined state, rich with character and ready for transformation. For a cleaner finish, we recommend a thorough pre-installation clean using our Deep Clean product. Due to their reclaimed nature, expect notable variations in thickness and size; it's part of what makes each tile truly one of a kind.

# WANSDYKE

## NOTES

Suitable for interior walls and floors, external paving, pool surrounds, sealing required.

# MARLBOROUGH

TERRACOTTA - HANDMADE

Our traditional terracotta tiles come in multiple shapes to give this classic material a modern twist. Hardwearing and durable, they are ideal for high traffic areas such as kitchens and hallways, giving a warm earthiness and instant charm.

# RIALTO

## TERRAZZO - HONED

The Italian city of Venice is well known for its terrazzo filled buildings, and we took our inspiration for this range of resin-based real terrazzo tiles from landmarks and areas of the city. Rialto is made from recycled and waste marble materials, making it as sustainable as it is beautiful.

*A blend of recycled stone materials in seven rich tones.*

# REFORM

## COMPOSITE STONE - TUMBLED

An ingenious blend of recycled stone materials made in a carbon-neutral factory, Reform is highly durable and yet natural in effect. The rich playful tones are softened by the tumbled finish, with its lightly rounded edges and irresistibly tactile feel. Truly a tile made for the future!

Tiles displayed in sets of three showing expected colour variation.

# EAST VILLAGE

PORCELAIN - MATT

Inspired by the effortless cool of downtown interiors, our East Village collection brings a sense of quiet history to any space. The porcelain tiles have a gently worn patina, designed to look as though they've been part of the story all along. Classic chequerboard layouts offer timeless versatility, while graphic mosaics add a bold design note.

# PALM SPRINGS

PORCELAIN/CERAMIC - SATIN

Inspired by the clean, natural style found in the iconic city of Palm Springs, California, these marble effect tiles come with a beautiful fluted option for textural opulence, a matching flat tile, and a rounded beading to really complete the effect.

# SAVOY NOVO

PORCELAIN - MATT

Capturing the elegance and opulence of Italianate style, Savoy Novo, with its soft matt finish and streaks of wine-purple veining captures the full essence of Calacatta Viola marble in an easy-to-obtain porcelain format. Pairs perfectly with metal and wood finishes, thanks to the soft creamy-white background.

# PUMICE

PORCELAIN - TEXTURED

Evoking the terrazzo pavers used by the artist Michelangelo, Pumice Porcelain is a highly textured, yet soft underfoot tile, available in two stunning organic tones. The high-spec print carries right through the body of the tile, meaning that chips and scrapes are never a problem. It is also made from 40% recycled material.

# AVENTURAS

PORCELAIN - MATT

*By Zoe Glencross*

Designed by fabric designer Zoe Glencross, our Aventuras collection is a bold celebration of pattern and colour, with designs inspired by traditional Spanish and Portuguese tiles. Leaning into interior trends for maximalist designs and pattern layering, Aventuras offers a mix of intricate motifs, unique chequerboard options, and coordinating border and corner pieces. Become your own designer - whether you choose to combine one of the patterns with the intricate Ziggy border, or prefer something more restrained, this collection offers endless combination possibilities.

# MERMAID'S GARDEN

PORCELAIN - MATT

Submerge yourself into the great underwater world with Mermaid's Garden. Our own bespoke design, Mermaid's Garden comes pre-packed as a random mix of several designs, which layer plants, seaweeds and corals onto a rich emerald green backdrop, to create a sense of depth. Combine with our Signature Hexagons to create a cascading pattern, or use alone for maximum impact.

# WILTSHIRE HARES

CERAMIC - SATIN

*By Joanna May*

This eye catching collection designed by Wiltshire artist Joanna May features eight different miniatures of wild hares in various poses. Hand fired in our own kiln, these tiles have a traditional yet playful farmhouse feel, and evoke an instant connection with the rolling hills and grassland of the hares' natural habitat.

# AVENTURAS FIELD

PORCELAIN - MATT

*By Zoe Glencross*

Designed by pattern designer Zoe Glencross, our Aventuras collection is a bold celebration of pattern and colour, with designs inspired by traditional Portuguese tiles. Leaning into interior trends for maximalist designs and pattern layering, Aventuras offers a mix of intricate motifs, unique chequerboard options, and coordinating border and corner pieces. Become your own designer - whether you choose to combine one of the patterns with the intricate Ziggy border, or prefer something more restrained, this collection offers endless combination possibilities!

# CARTER

CERAMIC - GLOSS

Our best-selling Carter ceramic tiles combine a hand-crafted look with a sheen evoking traditional glazed ceramics. With several eye-catching lay-out options, from a contemporary herringbone or stack bond to a more traditional brick bond, Carter will find a place in houses of all ages.

# EARTHENWARE

PORCELAIN - MATT

Earthenware is inspired by Italian pottery sold on the streets of villages on the Amalfi Coast. Brought to life in many versatile shades and replicating the texture of pottery through its matt finish, Working individually or paired together, Earthenware tile is a thin rectangle shape and so can be used to create vertical, horizontal or unique patterns across both interior walls and floors.

# FOUNDRY NOVO

PORCELAIN - GLOSS

An extension to our Foundry range with some new popular colours, Foundry Novo brings iridescent shine to any interior scheme. The collection is reminiscent of aged glazed bricks, made popular during the Victorian era, showing all of the hallmarks of tiles that have been naturally aged, giving them an industrial edge.

# HACIENDA

PORCELAIN - SATIN

Hacienda gives the impression of time-worn terracotta and limestone flooring but is produced in an easy to maintain porcelain material. The collection is endlessly versatile and gives an irresistible natural effect thanks to its heavily aged edges. Lay these and you'll be transported to the Mediterranean in an instant.

# OSTERLEY

PORCELAIN - TEXTURED

The ground floor at Osterley Park in Middlesex displays an iconic chequerboard limestone floor, worn over the years by the passage of scullery maids and footmen. Our Osterley porcelain tiles authentically replicate this aged look, but with all the practicality and low maintenance of porcelain, and an R11 slip rating for use indoors and out.

# TUNSTALL

CERAMIC - GLOSS

Taking its cue from the classics, Tunstall evokes the richly toned puddle glaze effect that was popularised by the British ceramics industry during the Victorian era. With three formats and a range of contemporary tones, Tunstall can be installed in many different ways to create dramatic and authentic interiors.

# VICTORIAN STYLE™ WALL

CERAMIC - GLOSS

Traditional Victorian bathrooms, made beautiful by the detailed layering of mouldings, decorative borders, and wall-to-wall tiling, have always been an inspiration to us - so we created our own range, in traditional tones still loved today.

## NOTES

Suitable for interior walls. Crackle glaze tiles require sealing with Crackle Glaze Protector, see page 253.

\*Avoid cleaning Olive Green and Emerald Green with acidic cleaning products. Where Olive Green and Emerald Green are used in wet areas they may discolour.

For complementary mouldings, see page 207.

# WIGHTWICK

CERAMIC - GLOSS

A visit to Wightwick Manor in the West Midlands revealed original tiles made by William Frend De Morgan, a 19th century potter and tile designer who rediscovered the lost techniques of reactive metallic tile glazing. Our Wightwick ceramic wall tiles reflect his work, with jewel-like tones, a textured gloss finish and iridescent variations.

# VICTORIAN STYLE™ WALL

CERAMIC - GLOSS

Traditional Victorian bathrooms, made beautiful by the detailed layering of mouldings, decorative borders, and wall-to-wall tiling, have always been an inspiration to us - so we created our own range, in traditional tones still loved today.

# PISA

## MINÉRALE - PURE MATT & GLOSS

With a soft grey tone, lace-like graphite veins and occasional white flecking, this tile has all the grand character of the Tuscan city of Pisa. Available in both Pure Gloss and Pure Matt finishes, the inviting and practical light grey tone is incredibly versatile. Perfect for seamless flooring throughout the entire house, Pisa has a neutral tone that pairs with any style choice, and requires very little maintenance.

# IN & OUT STONE

Designed for spaces that flow.

Bridging indoors and out, these stones offer a seamless aesthetic and seasonal durability, designed to feel at home in every corner of your world. Slightly slimmer than traditional paving, they're classed as frost resistant, but do require full bedding onto a prepared sub-base to ensure lasting performance.

For detailed installation guidance, please refer to the instructions at the back of this brochure.

NATURAL STONE. 218  
COMPOSITE STONE. 227

For Decorative Outdoor Tiles, refer to the  
Decorative section, page 122.

Please remember that natural stone is just that – natural; so variation and blemishes are to be expected, as is the need to seal and maintain the material. We have built up a large collection of photography over the years, so head to our website at [capietra.com](http://capietra.com) for more images of any of our beautiful natural stones, and be sure to order samples before placing your final order. It is important to make sure your installer has the know-how to work with natural products.

# TRUSLOE

## LIMESTONE - SEASONED

The tones may be soft and muted, but the stone is as hard as nails – virtually indestructible, in fact. The natural riven face of the stone is smoothed off, then 'seasoned' to give the appearance of a time-worn, country house floor.

# REFORM

## COMPOSITE STONE - TUMBLED

An ingenious blend of recycled stone materials made in a carbon-neutral factory, Reform is highly durable and yet natural in effect. The rich playful tones are softened by the tumbled finish, with its lightly rounded edges and irresistibly tactile feel. Truly a tile made for the future!

# PAVING

Beautifully made for the outdoors.

Crafted in porcelain, clay and natural stone, our outdoor tiles are frost-resistant and thicker than our in/out collection, making them easy to install and built to endure. Designed to work beautifully on their own or in harmony with indoor spaces, they'll weather over time, adding depth and character to any landscape.

NATURAL STONE. 230

PORCELAIN. 238

CLAY PAVERS. 243

Please remember that natural stone is just that - natural; so variation and blemishes are to be expected, as is the need to seal and maintain the material. We have built up a large collection of photography over the years, so head to our website at [capietra.com](http://capietra.com) for more images of any of our beautiful natural stones, and be sure to order samples before placing your final order. It is important to make sure your installer has the know-how to work with natural products.

LIMESTONE - TUMBLED & ETCHED

The tumbled finish roughens the edges and ages the stone, while the additional etched finish provides additional grip, without compromising on the stone's colour. This look makes the stone very adaptable for traditional and contemporary design schemes.

# DESIGN FLOORS

For when you want to add a special touch to your floors to really elevate your space.

## CHEQUERBOARD

Timeless yet striking, a Chequerboard floor brings graphic elegance to both contemporary and classic interiors. Available in natural stone or porcelain, this look is as versatile as it is enduring.

## TILE BORDERS

Borders bring a sense of intention to a space. We can cut tiles to size to create refined framing details - ideal for elevating a room and giving it that all-important finishing touch.

## SKIRTING

Imagine skirting boards that never shows scuffs and wear, and never require repainting.

Not only can tile skirtings match the floor in the room for an elegant touch, but they are also much more durable than traditional wood skirting boards and need next to no maintenance.

We can cut skirtings from tiles in our own workshop, which will match your floor beautifully.

Prices on application, contact the Ca' Pietra team for pricing.

# CABOCHON FLOORS

Cabochon floors are created by cutting off the corners of a square tile, and then popping a smaller square tile in-between. We recommend going for a contrasting colour of cabochon for ultimate impact. For bespoke sizes and shapes please contact the Ca' Pietra team.

## 1. CHOOSE YOUR MAIN TILE

Any of our square tiles of porcelain or stone can be cut for cabochon floors.

Browse our catalogue for inspiration!

# GROUT & SILICONE

You've picked your tiles—now enjoy picking a complementary or contrasting grout and silicone. The design options are endless—just remember that if you're using a natural material, our silicones are not suitable. Also, steer clear of grouts that are too dark, as they can stain the surface of stone.

## RESIN-CEMENT GROUT IS...

- ✓ Water-repellent
- ✓ Very low water absorption
- ✓ High surface hardness
- ✓ Resistant to acids
- ✓ Natural antibacterial properties
- ✓ Underfloor heating compatible

## OUR SILICONE IS...

- ✓ Colourfast
- ✓ Resistant to frost
- ✓ Seals porcelain tiles
- ✓ Seals ceramic tiles
- ✓ Suitable for swimming pools and in permanent contact with water

# ADHESIVES & PREPARATION

## ADHESIVES

### Premium White Semi-Rapid Adhesive

Single part, semi-rapid setting flexible adhesive for porcelain, mosaic and natural stone. It is specially formulated with enhanced adhesion and flexibility, making it ideal for areas where slight movement or vibration can occur. 3-20mm bed thickness.

Coverage: 4.5kg per m<sup>2</sup> at 3mm bed thickness.

VOLUME	SKU	£ EX VAT	£ INC VAT
20kg	6032	£24.90	£29.88

## PREPARATION

### Pre-Tile Primer

Acrylic primer for sealing porous surfaces and anhydrite screeds prior to tiling.

Coverage: 0.15-0.25kg per m<sup>2</sup>.

VOLUME	SKU	£ EX VAT	£ INC VAT
1kg	215	£11.47	£13.76
5kg	216	£43.27	£51.92

## MOVEMENT MATTING

### Structured Decoupling Matting

Polyethylene membrane with a grid structure of square cavities, each cut back in a dovetail configuration and an anchoring fleece laminated to its underside. This 3mm thick matting is designed for tile and natural stone installations, over new subfloors and underfloor heating.

FORMAT	SKU	£m <sup>2</sup> EX VAT	£m <sup>2</sup> INC VAT
1m x 3mm (30m roll)	6039	£15.88	£19.06

### Sound Barrier Underlay

For Minérale New Forest Herringbone.

FORMAT	SKU	£ EX VAT	£ INC VAT
0.89m x 1mm (16.85m long)	22040	£110.25	£132.30

## TEMPORARY FLOOR PROTECTION

### Fire-retardant Membrane

Premium loose-lay, breathable protection sheeting for use after grouting. Enables floor to breathe while tiling cures and dries.

FORMAT	SKU	£m <sup>2</sup> EX VAT	£m <sup>2</sup> INC VAT
1m x 0.5mm (100m roll)	78	£3.29	£3.95

### Protective Card

Loose-lay, breathable protection sheeting for use after grouting. Enables floor to breathe while tiling cures and dries.

FORMAT	SKU	£m <sup>2</sup> EX VAT	£m <sup>2</sup> INC VAT
1m x 0.5mm (100m roll)	279	£2.19	£2.63

# ANCILLARY STONE & TILE CARE

We want to ensure that your stone and tiles look as good tomorrow as they do today. Take care of your stone and tiles by using our products that we recommend, over the next couple of pages.

## GENERAL CLEAN & CARE

### All Clean

High-quality concentrated cleaner for routine use. For use on all types of stone and tile. Coverage: Up to 40 washes per 20 per litre.

VOLUME	SKU	£ EX VAT	£ INC VAT
1 Litre	3266	£13.36	£16.03
5 Litres	3270	£52.61	£63.13

### Clean & Sheen

High-quality concentrated cleaner for routine use. This gradually builds a light sheen. For use on all types of stone and tile. Coverage: Up to 40 washes per 20 per litre.

VOLUME	SKU	£ EX VAT	£ INC VAT
1 Litre	3267	£19.68	£23.62
5 Litres	3268	£68.27	£81.92

## REFURBISHING & TROUBLESHOOTING CLEANERS

### Deep Clean

Heavy-duty intensive cleaner and remover. For use on all types of stone and tile. Coverage: approx 20 per litre depending on level of cleaning required.

VOLUME	SKU	£ EX VAT	£ INC VAT
1 Litre	3269	£15.99	£19.19

### Cement, Grout & Salt Residue Remover

Rapid action cleaning agent for removing cement residues, grout stain, salts, efflorescence and other similar deposits. For all types of unpolished natural stone and porcelain, glazed ceramic, slate, quarry tiles, brick, terracotta and granite. Coverage: Approx 5-25 per litre.

VOLUME	SKU	£ EX VAT	£ INC VAT
Litre	4535	£23.71	£28.45

### Paving Deep Clean

The perfect product to remove stains and markings on external tiles. Suitable for natural and reformed stone, as well as porcelain.

VOLUME	SKU	£ EX VAT	£ INC VAT
5 Litres	17063	£45.00	£54.00

## IMPREGNATING SEALERS

### Stain Block

Solvent-based impregnating sealer for pre and after grouting for interior use. For use on all types of natural stone and terracotta.

Coverage: Approx 15 per litre depending on the porosity.

VOLUME	SKU	£ EX VAT	£ INC VAT
1 Litre	3260	£39.15	£46.98
5 Litres	3261	£164.16	£196.99

### Stain Block Eco

Water-based impregnating sealer for pre and after grouting for interior and exterior use. For use on all types of natural stone, reformed stone, and terracotta.

Coverage: Approx 15 per litre depending on the porosity.

VOLUME	SKU	£ EX VAT	£ INC VAT
1 Litre	3262	£35.49	£42.59
5 Litres	3263	£117.78	£141.34

### Crackle Glaze Protector

Helps protect tiles from penetration by water, dirt, oil, grease, limescale and other household contaminants. For use on crackle glaze tiles and grout joints.

Coverage: Approx 10m<sup>2</sup> per 0.5 litres.

VOLUME	SKU	£ EX VAT	£ INC VAT
0.5 Litre	3483	£25.78	£30.94

### Boiled Linseed Oil

For protecting and enhancing machine and handmade terracotta. Fills and hardens within the open pores of the terracotta inhibiting the absorption and enhances the strength of the tile.

Coverage: Approx 6 per litre depending on the porosity.

VOLUME	SKU	£ EX VAT	£ INC VAT
2 Litre	3271	£27.96	£33.55

## SURFACE TREATMENTS

### Stone Shield

Liquid satin finish sealer for interior use. For use on unpolished natural stone, reformed stone, and terracotta.

Coverage: Approx 15 per litre depending on the porosity.

VOLUME	SKU	£ EX VAT	£ INC VAT
1 Litre	3264	£23.58	£28.30

### Beeswax Polish Antique

Colour enhanced soft paste wax for ageing the appearance of natural terracotta and stone. Provides extra surface protection and patination, applied after sealing, requires buffing.

Coverage: 10m<sup>2</sup> per litre (two coats).

VOLUME	SKU	£ EX VAT	£ INC VAT
1 Litre	319	£36.65	£43.98

### Porcelain Pre-Grout Barrier

A surface treatment that creates an invisible barrier on the tile's surface, preventing grout and dirt becoming ingrained in the surface of textured tiles - making cleaning easier.

VOLUME	SKU	£ EX VAT	£ INC VAT
1 Litre	17064	£25.50	£30.60

# INSTALLATION

## INTERIOR SPACES

Please note these are very general guidelines and not definitive instructions. The issuer of these guidelines cannot be held responsible for installation. It is always recommended that a qualified and professional tiler should take responsibility for the installation of all stone and tile products. We recommend that your installer has adequate understanding of how to install our artisanal materials to ensure the best results.

We always recommend ordering 10-15% extra material for wastage when installing, if your order has suffered any minor damage in transit, we suggest you keep these tiles aside for cutting.

### On receipt of your order

When you receive your order, please check that you have all your tiles and that they are in good condition as any discrepancies cannot be resolved after installation.

### Some general points

- Prior to installation you should store your tiles in a dry place.
- Do not install tiles during very hot weather.
- Avoid direct sunlight on to natural stone during installation (prior to sealing the tiles).
- Never use acids or undiluted alkaline solutions to clean natural stone, unless for troubleshooting.
- Always ensure that surfaces are properly sealed on natural stone and crackle glazed tiles before grouting.
- Do not cover newly installed surfaces with non-breathable membranes such as self-adhesive plastic sheeting or plywood sheets. If surfaces need to be covered after installation, use a good-quality decorator's sheet or a thin specialist protective card instead.
- Always refer to the manufacturer's guidelines on the packaging of installation materials or data sheets, available on request.
- It is important to shuffle your tiles from pack to pack before you install them, to ensure an even blend of tones, this is particularly important for natural stone and more artisanal products.
- It is known in this industry that porcelain tiles and paving exceeding 75cm in length and/or width have a slight bow to them. This bowing occurs as a natural result of the drying process – it's a characteristic of the product and not classed as a fault. When tiling with a brick bond pattern with large format porcelain tiles, offset each row from the previous row by no more than one third of the tile's length. This will ensure that the bowing does not adversely affect the look of your tiled area, however we suggest you check your particular tile before you install and decide what is best for you. We also recommend using levelling clips, as this will ensure a good, finished result is achieved.

### Prior to installation

Both sides of the tile should be wiped clean of any dust before installation and the top surface should be wiped again after installation and before grouting takes place.

The subfloor or wall should be a flat, level, and stable surface to tile on to.

If tiling over a timber surface, the floor will need overlaying with a specialist tile backerboard. You can also use this product to tile on to timber- framed walls, we do not recommend tiling onto plaster board, especially in wet areas.

We recommend to pre-tile prime all surfaces that are going to be tiled using our Pre-Tile Primer, diluted as per the instructions on the packaging.

If you are tiling on to walls and floors in wet areas, we recommend you fully tank (waterproof) prior to tiling with a specific paint on tanking system.

If you are tiling on to an underfloor, heated screed, or a newly poured screed (once it's fully dried and cured, please refer to the manufacturers' instructions regarding this) the floor will need pre-tile priming and overlaying with a movement decoupling membrane such as our Structured Decoupling Matting. This will help prevent any shrinkage or cracking that may occur in the screed being transferred through to the tiles.

### Cutting stone & tiles

Natural stone and tiles can be cut using a diamond blade – ideally a water-cooled machine to keep dust to a minimum.

Some porcelain, glass and ceramic tiles can be cut with a scribe and break type cutter.

### Grout joints, spacers & levelling clips

Grout joint width is a personal choice however when using spacers extra care must apply when tiling natural stone, non-rectified porcelain and smaller format tiles because these products have higher tolerances in size variation that can cause some challenges when using set size spacers.

When installing natural stone in one of our random repeating patterns (French, Dutch or Spanish for example), we advise dry laying a pattern set to establish the required grout width to make the pattern flow, with such patterns it is normal that these joints will vary so it is best to avoid using set size spacers and use wedges/packers. Once grouted this variation will be hardly noticeable and part of the feature of a random looking floor.

Commonly known as LASH clips, this stands for Level, Align, Space & Hold. Levelling clips are a two-part system consisting of a clip and a wedge, ensuring your tiles are absolutely level without any lipping or exposed edges that can be caused by slightly bowed tiles. They can align tiles from 9-15mm thick ensuring even grout joints and can be used for both wall and floor tiling. The holes in the base of the clip allow for the adhesive to pass through, ensuring no voids are left under the tile.

#### **Installation**

Use a good-quality, flexible, white, tile-adhesive, such as our Premium White Semi Rapid Set (carefully follow any instructions on the packaging) and apply with a notched trowel.

Ensure 100% adhesive coverage of each tile and the subbase, never dot and dab. Remove excess adhesive with a damp cloth quickly before it hardens or stains the tile.

Level the tiles using hand pressure only, where possible. Using a mallet or rubber hammer could cause cracking.

#### **Preparing before sealing and grouting – natural stone and terracotta**

Clean and condition the surface using a diluted solution of alkaline cleaner such as our Deep Clean (diluted 1:10 with water). This will help ensure that any dust, dirt, and grime that may have accumulated during the installation process is removed. A properly cleaned and prepared surface will improve the efficiency of the sealer.

#### **Sealing your tiles – natural stone, crackle glaze and terracotta**

Once your tiles are installed you will need to use an impregnating sealant for protection prior to grouting such as our Stain Block (or for crackle glaze tiles a crackle glaze sealant).

#### **Preparing before grouting – porcelain and ceramic tiles**

Clean the surface using fresh clean water. This will help ensure that any dust or grit that may have accumulated during the installation process is removed, preventing the risk of scratching the tiles when being grouted.

#### **Grouting**

We recommend using lighter coloured grouts for most products, in particular natural stone and matt/textured glazed tiles, rather than black or bright coloured as these can cause staining on light materials, this staining is particularly hard to remove.

- Ensure you have selected a grout product that is suitable for use with the chosen tile material and desired joint width.
- Ensure that you wipe away any excess grout with a sponge and regularly change the water before the grout dries. Avoid raking out the grout in the joints and do not allow water to puddle.
- Before the grout has fully set wash again with a damp sponge to ensure as much residue is removed with a solution of alkaline cleaner such as our Deep Clean (diluted with 1:20 with water).

#### **Finishing after grouting – natural stone and terracotta**

##### **Natural finish:** (Typically smooth finish materials)

Apply a final coat of impregnating sealer making sure to cover grout joints as well, you will then need to remove any excess unabsorbed sealer after approx. 30 mins depending on atmospheric conditions.

OR

**Satin finish:** (Typically for more rustic and porous materials, especially terracotta) Further to the above and only if the stone is not used in a wet area, you can apply a surface coating such as our Stone Shield or Bees Wax Polish. This will offer further protection; it will help fill the natural pores and gives the product an attractive patina.

##### **Finishing after grouting – porcelain and ceramic tiles**

For crackle glaze apply a second coat of crackle glaze sealant.

Dry buff the tiles with a clean cloth to remove any final grout residue.

There is the option to further seal the grout joints if desired using our Stain Block Eco. When using this remove any excess liquid immediately.

On very matt porcelain floors you can apply our Stone Shield in non-wet areas to help ease the cleaning required and enhance the appearance of the tile.

# INSTALLATION

## GENERAL CARE – STONE & TILES

As long as you are confident you have selected the right type of product for the space and your lifestyle, caring for your floors and walls doesn't have to be a chore. Here are a few essential steps.

Firstly, keep floors as free as possible of loose dust and grit with regular vacuuming or sweeping. This will greatly reduce the 'sandpaper' effect that can occur on the surface and will reduce dirt getting compacted into the surface and joints. We recommend washing the floor with a damp mop – firstly, to remove the dirt that a vacuum won't pick up, and secondly for hygiene. Avoid using too much water as this tends to spread the dirt from one area to another, whereas a well rung or fibre mop will lift it up.

We strongly recommend that you use specialist cleaning products. The harsh, acidic household products can 'bruise' your stone and break down protective sealants or attack some coloured glazes on tiles.

Ideally, use a product that is PH neutral, bio-degradable, and environmentally friendly. We recommend our All-Clean product. This can be diluted in water for a traditional mopping method or in a ready to use solution for use with microfibre mopping systems for floors and the same product with a mist spray and microfibre cloth for walls.

Avoid using steam cleaners on natural stone – they may clean some surfaces, but the hot steam can remove the sealer and damage the surface over time.

## Maintenance – natural stone

Using the correct specialist cleaning product will greatly reduce the frequency of more intensive cleans and reseals.

General wear of the surface from foot traffic over time exposes capillaries, or tiny cracks and these can accumulate dirt and grime. Therefore, we recommend a more intensive clean every 3–4 years, with a heavy-duty product that will dissolve ingrained dirt and grease, such as our Deep Clean.

A common misconception is that every natural stone surface need resealing every few years, but this will depend on the particular stone and its use. You can normally tell if a stone needs resealing by wetting the stone and leaving for around five minutes before wiping off. If the water leaves a mark by darkening the stone this will mean the stone is becoming more porous and would benefit from a top-up.

You should first give it an intensive clean with a product such as Deep Clean, this will help to allow the sealer to penetrate.

If the stone has had a surface coating applied, it is most likely that this is all that will need to be reapplied, not the original impregnating sealer, unless the stone has become extremely porous.

For stones with a natural finish, apply a coat of impregnating sealer such as our Stain Block and wipe off the excess after around 20 minutes and repeat if required. Do not allow any of the product to dry on the surface.

Please note that it is perfectly normal for natural stone to mature with use and time and for its appearance to evolve as part of its intrinsic beauty.

## EXTERIOR SPACES

Please note these are very general guidelines and not definitive instructions. The issuer of these guidelines cannot be held responsible for installation. It is always recommended that a qualified and professional tiler should take responsibility for the installation of all stone and tile products. We recommend that your installer has adequate understanding of how to install our artisanal materials to ensure the best results.

These are brief guidelines for working with natural stones and man-made paving. This general guidance does not imply any guarantee by Ca' Pietra.

We always recommend that a qualified and professional installer should take responsibility for the specification and installation of all stone and tile products.

Current and appropriate industry standards and codes of practice should be observed in all instances. However, if you do decide to install the stone or tiles yourself, we strongly recommend that you do plenty of research into materials and methods, and seek the best advice on how to carry out the installation.

### On receipt of your order

When you receive your order, check that you have all of your tiles and that they are in good condition as any discrepancies cannot be resolved after installation.

### When you take delivery of your order

Check that you have all your slabs and that they're in good condition. Remember, with natural or handcrafted products there will always be some variations in colour tone, veining, surface texture and natural characteristics.

**Tip:** Keep the tiles on a level, stable surface, stored vertically to avoid any risk of cracking.

### Before you install

#### Tips:

- Wipe both sides of the tile clean with a sponge and clean water before installation to remove dust. This will ensure good adhesion.
- Don't install slabs in freezing or cold conditions.
- Give yourself a dry run by laying your slabs or tiles as they will eventually be laid. This enables you to check you have the correct number and size of slabs and colour blending.
- When installing a flagstone, it is important to ensure it is laid the right way up (one way to identify the top, is to look at the sides of the slab – which usually taper inwards, so that the top is slightly wider than the underside). If in doubt it's always best to ask a stone expert.
- With natural stones, randomly select and mix tiles from the different boxes or crates you receive to ensure a tonal blend across the entirety of the new surface and avoid any colour banding.

### General preparation

The golden rule is: tiles must always be 'solid bedded' – in other words, avoid any cavities underneath the material.

The bed should support the full slab, not just the corners or in dots/dabs. Do not 'spot' bed as this can cause 'through bed staining' and will weaken the integrity of the paving. (Please note that precise standards, falls, bed thicknesses and other specifications may vary dependent on the actual application. You should always refer to appropriate and current standards and codes of practice.)

### Cutting tiles

Tiles can be cut using a diamond tipped blade – ideally a water-cooled machine for the cleanest cutting. There are different blades for natural stone and for porcelain so it's important to have the correct one.

### Levelling your tiles

Thin tiles (up to 1cm) should be levelled using hand pressure only. A rubber mallet hammer can be used for thicker, more robust slabs.

### Substrate preparation and installing the tiles

There are several different methods of installation for external paving.

#### The two most common methods are:

**Option 1:** If the external works are a continuation of the internal tiling – lay a structural concrete screed, to the appropriate current standards, with the required sub-base. Ensure that adequate falls, cross falls and intersections are accurately created in the screed to fine tolerances, for good levels of drainage. The tiles can then be installed using a flexible thick-bed floor tile adhesive (suitable for external use) following the same tiling standards as internal flooring.

A 10mm notched trowel will provide a 5mm finished adhesive-bed thickness. Leave 6mm wide expansion joints in accordance with current BSEN requirements and at changes of plane. You should fill these joints with exterior grade mastic, matched to the grout/joint colouration.

**Option 2:** If you are laying external works as 'slab paving' rather than tiling – the appropriate sub-base should be laid and well compacted. For good stability this is usually an even 10cm-thick, compacted layer of type 1 granular aggregate (40mm to dust). For most domestic applications a sub-base of 10cm should be sufficient. However, the paving design must be based on ground conditions as well as type and frequency of anticipated loads.

As previously described, falls, cross-falls and intersections must be carefully formed. You should incorporate a minimum fall of 1.25% (1 in 80) and crossfall of 2.5% (1 in 40) in the sub-layer construction to provide adequate surface-water run-off. Use a ratio between 4:1 and 6:1 of sharp sand, cement and plasticiser (to BSEN requirements). Prepare a base of mortar beneath the slabs – normally around 30-50mm thick.

# PATTERNS

Products that are supplied in 'patterns' consist of combinations of set size flagstones, which enable you to follow classic patterns such as American, Dutch, French, Greek, and Spanish as illustrated here.

This means you can lay your natural stone or man-made floor to these patterns without the waste associated with cutting uniform tiles to appropriate sizes.

So, for example, one set of 'Dutch pattern' consists of 11 stones, and 3.33 in total. Some of our products (primarily natural stone) are available in different widths and random lengths, so that you can choose whether to lay floors in your own free form pattern, or in a regimented design (see fig 1).

When buying a pattern you must buy at least one complete set of tiles and therefore a minimum number of square metres, depending on the exact number of tiles within that pattern.

## French pattern Fig 2

Each repeat is 1.44 with 12 stones in each repeat.

Stone	Dimensions (cm)	Quantity
A	40 x 60	2
B	40 x 40	4
C	20 x 40	2
D	20 x 20	4

## Greek pattern Fig 2

Each repeat is 2.72 with 12 stones in each repeat.

Stone	Dimensions (cm)	Quantity
A	55 x 82	2
B	55 x 55	4
C	27 x 55	2
D	27 x 27	4

## American pattern Fig 2

Each repeat is 5.76 with 12 stones in each repeat.

Stone	Dimensions (cm)	Quantity
A	80 x 120	2
B	80 x 80	4
C	40 x 80	2
D	40 x 40	4

## Spanish pattern Fig 2

Each repeat is 3.24 with 12 stones in each repeat.

Stone	Dimensions (cm)	Quantity
A	60 x 90	2
B	60 x 60	4
C	30 x 60	2
D	30 x 30	4

Fig 3

**Dutch pattern Fig 3**

Each repeat is 3.33 with 11 stones in each repeat.

Stone	Dimensions (cm)	Quantity
A	62 x 91.8	3
B	61 x 61	2
C	30.5 x 61	4
D	30.5 x 30.5	2

Fig 4

**Opus pattern Fig 4-6**

With Opus it is possible to make three different patterns. Each repeat is 0.72 with 5 tiles in each 'repeat'

Tile	Dimensions (cm)	Quantity
A	40 x 60	1
B	40 x 40	2
C	20 x 40	1
D	20 x 20	2

Fig 5

**Marlborough Terracotta Square and Picket Pattern Fig 7**

This is the module repeat

Total area = 0.09m<sup>2</sup>

(approximate sizes & joint width)

1m<sup>2</sup>/0.09 = 10.81 units

(approx. 11 square units/22 picket units required per m<sup>2</sup>)

Fig 7

Fig 6

# GLOSSARY

Our stone comes in a range of finishes for aesthetic or practical effect. In a bathroom, for example, a textured finish will provide better slip resistance; whereas if you are restoring a heritage property, an ageing process such as 'seasoned' helps match to existing materials.

Please note: these descriptions are only a guide because every stone is unique and reacts to the finishing process differently.

## FINISHES APPLIED TO NATURAL STONE

### **Distressed**

The edges of the stone are chipped by hand and cushioned using diamond grinding pads. This process gives a more refined time-worn appearance than our seasoned finish.

### **Etched**

The face of the stone is sand-blasted to create a low-slip finish, perfect for external and wet areas. The process creates a more contemporary 'bleached' look, which looks seamless when run from inside to outdoors.

### **Handmade**

Handmade refers to our terracotta collection, where raw clay is worked into moulds by hand, before being left to dry and baked.

### **Honed**

Planing the surface of the stone with a machine at high-pressure, using diamond pads, creates a smooth satin or matt finish. The edges are diamond-sawn and typically contain imperfections; once grouted, these blend into the stone for a truly natural effect.

### **Reclaimed/Recycled**

Genuinely reclaimed products are often more than 100 years old. Each tile varies and requires a little more attention on site to create the perfect finish.

### **Riven**

A riven finish is naturally split along the strata of the stone to create an authentic surface that will vary from stone to stone. Riven stone tends to disguise the wear and tear of everyday family life.

### **Satino**

Satino finished stone undergoes a high-pressure brushing process, to uncover its natural character. The edges are usually straight and slightly rounded.

### **Seasoned/Heritage**

With heavily tumbled edges and a textured surface, which is either naturally-occurring or applied, Seasoned/Heritage stone has a rugged, flagstone effect.

### **Tumbled**

Tumbled stones are individually placed in a jumbo rotating vat, which is full of pebbles, to create naturally soft, round edges, much like pebbles on a beach. This is great for replicating a 'lived in' look that is not too rustic.

### **Tumbled & Etched**

This is an extra etching process that is applied to tumbled stone to increase slip resistance. The stone undergoes a washing process that etches the surface, to improve the anti-slip properties whilst retaining its natural warmth and colour.

### **Velvet/Natural**

Velvet/Natural finished stone is first etched, creating a 'bleached' look, and then undergoes a satino process which gives it a tactile, velvety feel underfoot. This finish works effectively in both traditional and modern interiors.

### **Weathered/Vintaged**

This finish is the result of an intensive process where the edges of the tile are chipped, exposing an open-grain surface, which authentically replicates the appearance of ancient flagstones.

### **Worn**

A worn finish is created through a smoothing process applied to riven stone, either by hand or machine. This grinds down the natural undulations of the surface to create the effect of old flagstones.

## FINISHES APPLIED TO PORCELAIN AND CERAMIC

### **Matt**

Low sheen with some texture or graining. Varies depending on tile.

### **Satin**

Low sheen and smooth to touch. Varies depending on tile.

### **Gloss**

A shiny finish glaze. Some glazes are designed with a crackle effect and require sealing. Polished finishes are more susceptible to scratching, especially floors.

### **Polished**

Highly polished by mechanical process. Polished finishes are more susceptible to scratching, especially floors.

### **Textured**

Normally matt with some relief to the surface.

# STONE & TILE TYPES

## NATURAL STONE

Perfectly imperfect – the beauty of natural stone means that there will be variations from piece to piece. There is no such things as a “perfect” piece of stone, which is what we love most about the unique nature of our products in this collection.

### LIMESTONE

#### Geology

A sedimentary rock mostly formed during the Jurassic period by deposits of shells collecting on the sea-bed and being compressed over time.

#### Key quality

Shell and fossil patterns and an infinite range of shades – usually from cream through to yellow, but also encompassing white and black.

### SANDSTONE

#### Geology

A sedimentary rock made up of compacted grains of sand, bound together by a secondary mineral such as calcite, clay or silica.

#### Key quality

Hardwearing, frost-resistant and low-slip make it ideal for outdoors.

### MARBLE

#### Geology

The geological process that produces the prominent veins and quartz in the surface of marble is called recrystallization. The vivid colours vary depending on the prevalent minerals in the area from which it is quarried.

#### Key quality

Very hard and very smooth, with myriad colour tones and markings that are beautiful and mesmerising to look at.

### SLATE

#### Geology

A fine-grained rock derived from an original sedimentary rock made of clay or volcanic ash.

#### Key quality

The natural, slight undulations in the stone (caused by the way it is split when quarried) give it instant character. The dark colour makes it easy to maintain.

### Tonal variation

Natural stone almost always has some tonal variation from tile to tile and slab to slab. Natural stone and terracotta can carry slight chips and other blemishes. Allowances should be made for variations in size and thickness. To assess the natural variation of stone, we always recommend that you stand at least two metres away and look at the overall effect rather than each tile or slab, just as you would view a work of art by looking at the whole picture, before you start to inspect the brush strokes and the detail.

---

## TILES

### Porcelain

Porcelain tiles are made from a mixture of clays and minerals and fired at a very high temperature. This means that they are extremely hard wearing and very strong.

**Tip:** Due to the nature of the manufacturing process, porcelain tiles may be subject to a very slight ‘bow’ along the length of larger tiles (this can normally be corrected using a specialist clip system). This slight bowing, which will fall within European Standards (and please be assured that all our tiles are CE compliant), can cause slight ‘lipping’ between one tile and the next. If you wish to minimize the effect of this, we recommend that tiles should be laid square, or staggered by not more than a third of a tile length, rather than laying brick-bond.

### Ceramic

Ceramic tiles are made using a clay based material that is then decorated with an undercoat. Once this has been applied, a glaze is then poured over the top. Ceramic tiles are typically recommended for use on walls only (unless specified that they can be used on floors) due to their strength. Crackle glaze ceramic tiles will require sealing.

### Glass

Glass has its own beauty, but can also be transformed by the natural or ambient light with sparkles, reflections and fascinating changes of colour. It’s easy to maintain and non-porous.

### Rectified & Non-Rectified tiles

Tiles are normally pressed in a mould then fired which causes them to shrink, so most larger format porcelain (30 x 60 upwards) and some ceramic tiles are then cut down to a specific size before packing to ensure that they do not vary too much in size, enabling a tighter grout joint, this process is known as rectification. Smaller format tiles are rarely rectified because they shrink less and do not require this extra process, they are known as non-rectified and recommend a 3mm minimum grout joint and spacers need to be used with care or not at all.

For any larger format tiles we offer are non-rectified you will find this information on the product page and we do not recommend mixing them for example in a chequer pattern.

# DELIVERY RATES

Below you'll find everything you need to know about delivery rates. We price based on volume, and deliver via parcel or pallet network. It's also worth knowing that all pallets are delivered kerb-side.

## Stone and Tiles - Formats less than 35 x 35cm and up to 1.3cm thick

	Up to 1	Up to 2	Up to 3	Up to 4	4m <sup>2</sup> +
Mainland UK	£20.55 Inc VAT	£29.75 Inc VAT	£41.25 Inc VAT	£52.75 Inc VAT	See pallet rates
Scotland	£20.55 Inc VAT	£29.75 Inc VAT	£41.25 Inc VAT	£52.75 Inc VAT	See pallet rates
Highlands and Islands	£45.85 Inc VAT	£55.05 Inc VAT	£66.55 Inc VAT	£78.05 Inc VAT	See pallet rates

## Stone and Tiles - Formats less than 35 x 35cm and between 1.3 and 1.6cm thick

	Up to 0.5	Up to 1	Up to 1.5	Up to 2	2m <sup>2</sup> +
Mainland UK	£20.55 Inc VAT	£29.75 Inc VAT	£40.10 Inc VAT	£52.75 Inc VAT	See pallet rates
Scotland	£20.55 Inc VAT	£29.75 Inc VAT	£40.10 Inc VAT	£52.75 Inc VAT	See pallet rates
Highlands and Islands	£45.85 Inc VAT	£55.05 Inc VAT	£66.55 Inc VAT	£78.05 Inc VAT	See pallet rates

## Pallet Rates Formats larger than 35 x 40cm

Mainland UK	£79.97 per pallet Inc VAT
Scotland	£134.97 per pallet Inc VAT
Highlands and Islands	£176.97 per pallet Inc VAT

## Large format porcelain 120-150cm in length (excl. slabs)

Mainland UK	£121.57 per pallet Inc VAT
Scotland	£186.30 per pallet Inc VAT
Highlands and Islands	£218.80 per pallet Inc VAT

## Ancillaries

	Up to 5ltr/kg	Up to 20ltr/kg	Up to 40ltr/kg	Up to 60ltr/kg	Up to 80ltr/kg
Mainland UK	£8.59 Inc VAT	£19.22 Inc VAT	See pallet rates	See pallet rates	See pallet rates
Scotland	£8.59 Inc VAT	£19.22 Inc VAT	See pallet rates	See pallet rates	See pallet rates
Highlands and Islands	£23.77 Inc VAT	£45.02 Inc VAT	See pallet rates	See pallet rates	See pallet rates

Deliveries to Mainland UK will be made in 3 working days.

## Surcharges

Parcel AM & Saturday Surcharges: AM £12.00 INC VAT per delivery, Saturday £36.00 INC VAT per delivery  
Pallet Express Surcharge: £24.00 INC VAT per pallet (see above)

## Slab & Bespoke Products

Delivery is priced on application based on the number of slab and bespoke products, and the location. We are currently unable to deliver these to all areas of the UK or Ireland. Please speak to your retailer for more information.

**Please Note** - Pallet deliveries must be signed for, if a delivery is missed due to no one being in, there is a charge for redelivery at 50% of the original value.
