### A long tradition of quality

The Hansgrohe business can be traced back as far as 1901. Throughout our long history, we've been driven by some unchanging principles. Today, as always, the hansgrohe brand name represents the highest standards of innovation, quality performance and craftsmanship.

### World-leading design

We consistently win iF Design Awards - one of the world's most respected awards for outstanding product design. In fact, iF ranks Hansgrohe as one of the top six design-led companies in the world, coming above such names as Apple, Audi, BMW and Dyson. We win because not only do our products look stunning, they also meet the highest levels of intelligent engineering, usability, craftsmanship and lasting quality. In total, including our iF tally, Hansgrohe has won more than 800 design awards.

## Bright, shiny and robust coloured finishes

More colour in the bathroom: Each of the surface finishes are the result of an intense product development and a synergy of high-tech and handmade, as the brushed effect is created manually. This gives each product a unique texture based on its design. The result? Vibrant taps, showers and accessories made to the strictest quality standards that fulfil the desire for uniqueness in the bathroom teamed with a robust resistance to external factors.

All matt white and matt black products have been finished with two coats of lacquer in addition to the chrome plating for increased durability. Brushed Black Chrome, Brushed Bronze and Polished Gold Optic finishes are created using PVD (Physical Vapour Deposition). This advanced process permanently bonds colour to the surface, delivering a beautifully rich tone and an exceptionally hard-wearing, long-lasting finish.

# Raindance Alive. The new award-winning range from hansgrohe.

### A unique shower experience with water-saving technologies

The EcoSmart hand shower consumes 8 l/min thanks to the integrated flow limiter, while the EcoSmart+ model consumes 6 l/min – a potential saving of up to 60%\*. The large overhead shower (300mm diameter) consumes 12 l/min, or 8 l/min with EcoSmart. This constitutes a saving of up to 40% water\*.

\* Compared to hansgrohe showers without EcoSmart

### Minimalist design aesthetic

The exposed installation showerpipe lies so flat against the wall that it looks like a concealed installation. Available in six colours.

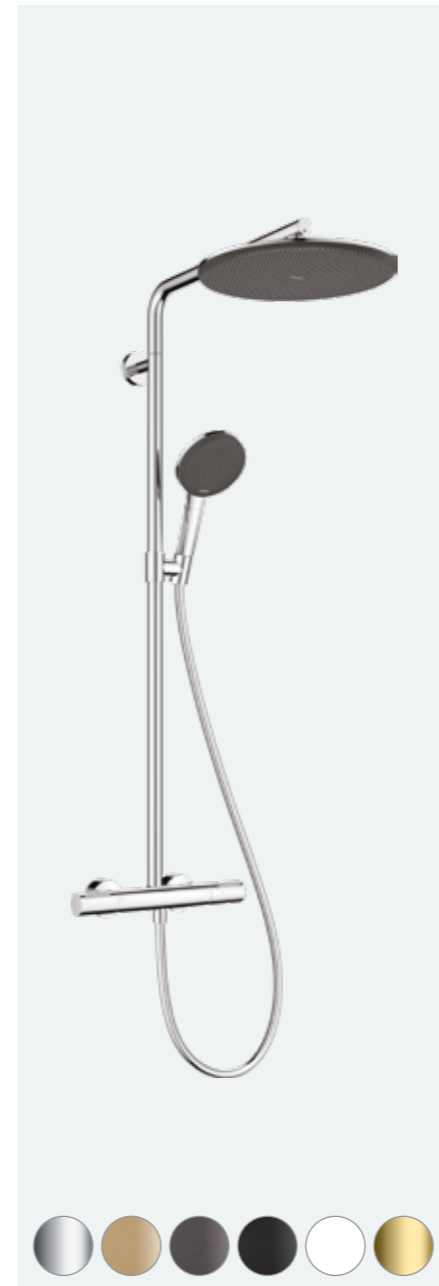

### Simple installation

Big impact, little effort, Raindance Alive products are also characterised by simple installation.

### Rapid cleaning

The mesh cover can be effortlessly removed and any limescale on the silicone nozzles beneath it can be rubbed off in an instant thanks to QuickClean technology. The mesh cover itself can be cleaned in the dishwasher to maintain its appearance and performance.

Suitable for bath fill

**Effortlessly customise your shower experience with the Select button**

Switch between various spray patterns with a simple touch. Thanks to its purely mechanical design, you can rely on its durability and ease of use every day. Choose from a range of spray options such as: invigorating Massage and IntenseRain sprays to relieve stress and rinse out shampoo, or the gentle PowderRain for a soothing shower with fine water micro droplets.

**The thermostatic control ensures consistent water temperature**

A safe and comfortable experience for all ages. The thermostatic valve ensures that water temperature and safety is maintained, despite any temporary fluctuations in hot or cold water availability.

**Outstanding performance, exceptional experience**

Regardless of your bathroom's size, the XXL shower head envelops you in water.

## Raindance. A new level of comfort in the shower.

### XXL Performance for a great experience

With this popular shower in XXL format, you can get the full pampering experience in your own bathroom.

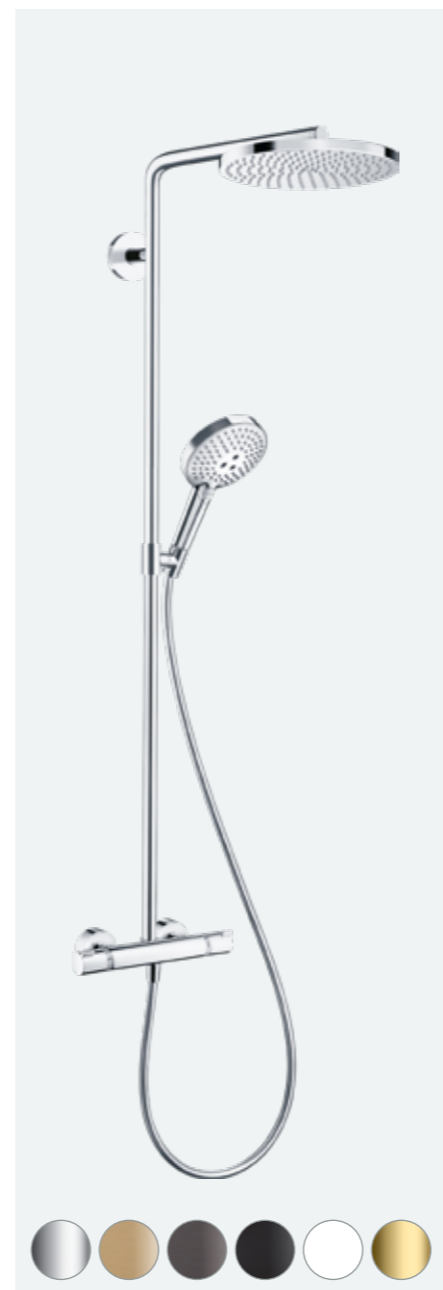

The Raindance Select S Showerpipe 240 1 jet PowderRain features our PowderRain spray type that envelops you in thousands of micro-fine drops - a unique shower experience for the body, mind and soul.

## Croma. Where modern design meets excellent value for money.

### Croma

An impressive combination of design and functionality. With trimmable/adjustable height and standard fixings it is ideal for replacement projects.

The overhead shower features a fully chrome plated, removable metal spray face for ease of cleaning. Whilst the Select button on the hand shower allows you to easily switch between three different spray types.

**Adjustable overhead shower angle**  
Features RainAir technology that combines water with a generous amount of air for soft and fuller shower droplets.

**Isiflex shower hose**  
A smooth chrome effect hose with internal anti-microbial technology to reduce the presence of bacteria. Constructed from strong anti-kink material ensures the hose maintains its shape over many years of showering. Pivot connectors prevent the hose from tangling during use.

### Croma showerpipe 220 1jet

This showerpipe looks good and feels great. With this versatile shower you can either enjoy RainAir from the overhead shower or four different spray types from the handshower. The vertically adjustable shower slide allows you to move the handshower to the most comfortable position.

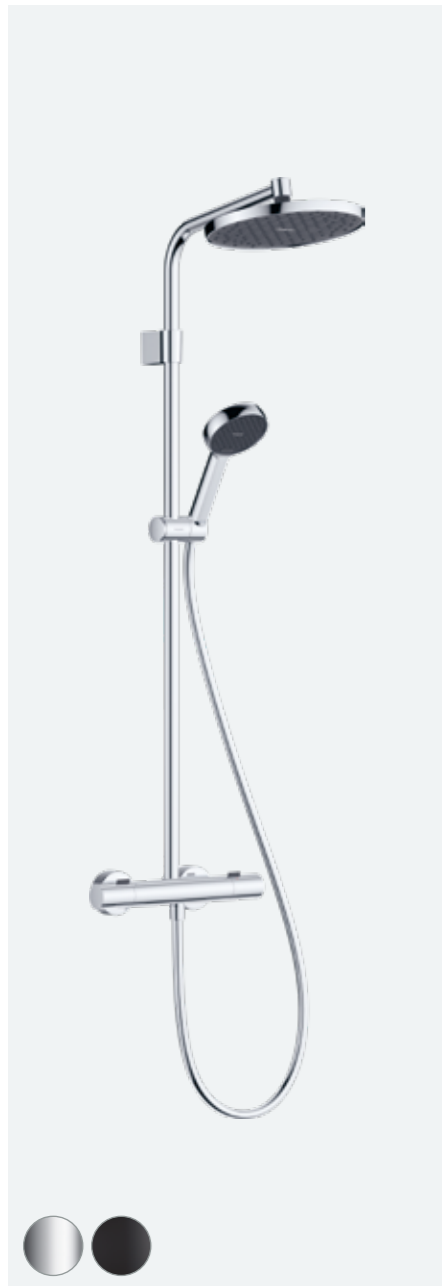

### Croma E showerpipe 280 1jet

This shower is an ideal all-rounder for the family bathroom, combining safety features with RainAir for a proper pampering session. Its stylish softsquare design features a thermostatic control valve fitted with innovative cooling technology to prevent it from getting too hot.

**A clever purchase for conscious consumers**

Activera pairs outstanding showering with excellent water efficiency, prioritising comfort, enjoyment and safety. FlexPower technology provides more stable performance and powerful water sprays, even if the water pressure or volume fluctuate. EcoSmart technology reduces the flow rate to 8 l/min. This equates to a 40% reduction in water consumption\*, that's not only good for the environment, but also your bank account.

\*Compared with a hansgrohe shower without eco-friendly technology, measured at 3 bar.

**XXL performance**

The large, spray disc on the overhead shower measures 240mm in diameter - for a luxury showering experience that envelops your entire body. The large rain shower can be adjusted to achieve an optimum spray angle. With a flat angle, the overhead shower can produce a low throw distance even in small shower areas.

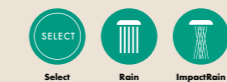

**FlexPower Technology**

The ergonomic hand shower comes with an intelligent Select button integrated into the spray disc - so you can simply switch the two spray types at the push of a button.

**Rain.** The voluminous rain spray from the hand shower creates an encompassing fall of rain. For everyone who needs a gentle caressing moment or a freshness boost.

**ImpactRain.** The powerful Impact Rain spray pattern washes away everyday stress and is perfect for invigorating massages or for rinsing out shampoo. Designed to be experienced with the 2jet hand shower.

### Add an extra level of comfort and safety, quickly and easily

EcoStat exposed thermostatic mixers look great and are ideal if you want a straightforward upgrade for your bathroom because they can be installed on existing connections. They also make showering a more comfortable experience as they continuously control the temperature and volume. The EcoStop button reduces water consumption to 10 l/min, and the convenient temperature pre-adjustment with safety lock at 40° protects you from scalding hot water.

## Raindance S slide rail kit

### Lose yourself in a cocoon of super-fine mist of PowderRain

Inspired by the warm, misty droplets of the rainforest, PowderRain introduces an entirely new way to indulge in water. Thanks to six fine openings in every nozzle, water is transformed into a cocoon of spray, which is both all-enveloping and supremely quiet. It truly is a showering experience unlike any other.

# Create a stunning concealed shower

Space saving or sleek and minimalistic, a concealed shower valve hidden behind your tiling or wet wall not only looks elegant but masks unattractive pipework.

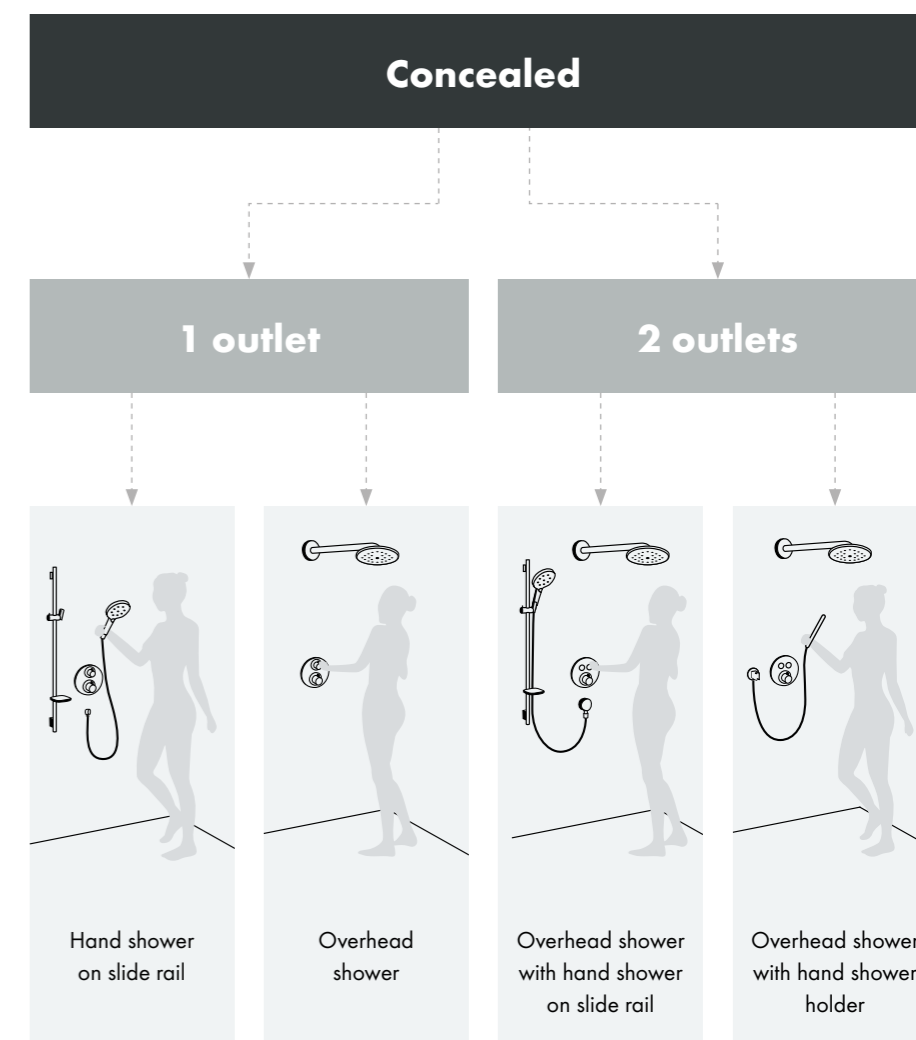

hansgrohe offer a wide range of attractive design options including overhead showers, that can be wall or ceiling mounted, and hand showers on riser rails that can be set to the perfect height. To control your shower or switch between overhead and hand shower there are also a number of valves for you to choose from.

We've also made selecting your ideal concealed shower combination easy. Simply use this configurator to identify the type of shower you want to create - either a one or two outlet shower. Then on the following pages you'll find a selection of products to bring your design to life.

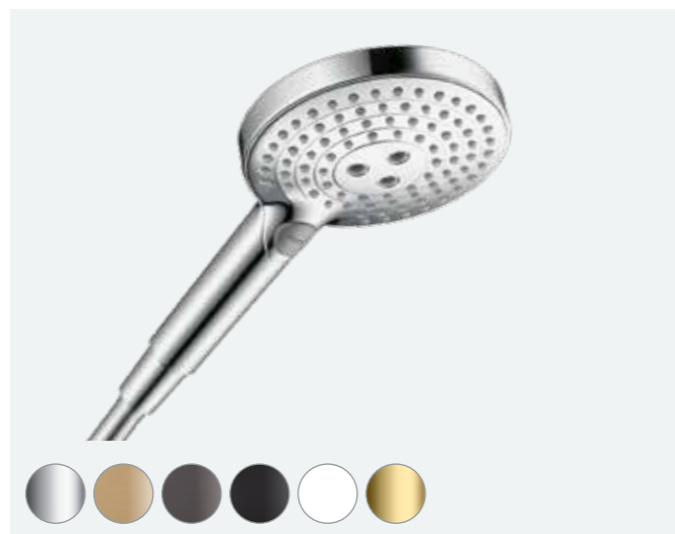

**Step 1**  
What type of valve needs installing?

**Step 2**  
How many outlets do you require?

eg. overhead shower, hand shower

### Rainfinity with PowderRain

Add a special level of indulgence to your daily shower: thousands of droplets from the PowderRain spray type cocoon you in a cloak of well-being. And best of all: PowderRain can cascade from all Rainfinity shower heads. The Select operated hand showers wow with three spray types (PowderRain, Intense PowderRain and MonoRain). With a diameter of 130mm, these showers have really hit the big time.

### Raindance Alive. A unique shower experience.

The round Raindance Alive handshowers (125mm diameter; with Select push button) can fill us with positive emotions or calm us through the regenerative power of water. Depending on the mood, depending on the spray type. With a touch of the button select between the three spray types (Massage, PowderRain and RainAir).

# Choosing your valve

## Push button valves

ShowerSelect Comfort's elegant design turns your shower into an artistic eye-catching piece and enables all shower elements to be intuitively controlled. One click accurately turns the water on/off, switches the spray type or between the hand shower and overhead shower. The concealed thermostat always balances out temperature fluctuations and reliably ensures feel-good showering.

## Lever operated valves

The EcoStat Comfort valve with operating elements featuring clear symbols and slender, ergonomically designed handles, is wonderfully intuitive to use. Switching between the overhead and hand shower is truly effortless. EcoStat Comfort refines your bathroom through intuitive operation and minimalist aesthetics. Whilst the purist design and concealed installation maximise the space available to you when showering.

### iBox universal 2. Efficient installation offering maximum flexibility.

The new generation of the hansgrohe iBox universal gives you maximum design freedom in the bathroom because it can be used with all hansgrohe finish sets. And it combines the proven benefits of the previous model with many new properties and additional benefits:

- More efficiency - time-saving installation
- More flexibility - more mounting options
- More safety - fewer installation steps

This unit's sophisticated design offers maximum storage space – with drawers without a cut-out and the option to add IntraStoris modules that act as interior dividers.

**The perfect piece of furniture for every bathroom**

This hansgrohe furniture series guarantees extraordinary design highlights in the bathroom – at an attractive price. The vanity units and tall cabinets impress people with their timeless, modern and minimalist look. These pieces are available in different surfaces and sizes and blend in harmoniously in any bathroom setting.

## Xanua Q. Making dream wash places a reality.

**Bring your WashPlace to life.**  
With Xanua Q by hansgrohe.

**Easy cleaning.** The rim around tap hole bench prevents water from spilling over while the optional SmartClean glaze facilitates easy cleaning.

**Sustainability.** Sanitary ceramic made from a natural recyclable material. SmartClean glaze reduces need for cleaning detergents.

**Made to fit NoiseReduction.** This product comes with a pre-cut soundproofing mat that is tailored to its geometry. This facilitates installation and saves valuable time on the construction site.

## iFrame. hansgrohe quality behind and in front of the wall.

### Effortless installation. Seamless performance.

With decades of experience, hansgrohe wins people over as a reliable partner for universal installation solutions behind the wall. From the classic toilet to the ShowerToilet, iFrame universal is the perfect addition to any hansgrohe ToiletPlace. Featuring high-quality and long-lasting components, the concealed cistern offers everything needed for effortless installation and maintenance – a smart solution for specialist bathroom retailers.

The iFrame universal front wall system 1120mm, is the perfect match for classic hansgrohe toilets and the hansgrohe shower toilet. The flush tank has been designed to support hansgrohe EcoSmart for efficient flushing performance, offering adjustable flushing volumes from 4 to 7 litres (top flush).

iFrame universal is the sophisticated front wall system for efficient installations. Benefit from these clever details:

- 1 The sturdy wall supports are included in the scope of delivery. The high-quality plastic screws ensure optimum noise reduction.
- 2 The assembly parts for the toilet and iFrame are pre-sorted and packaged separately in the in-wall tank, so everything is organised and ready to hand.
- 3 The robust construction is made of durable materials and designed for a load capacity of at least 400kg.
- 4 The flush system is perfect for hansgrohe portfolio of wall hung toilets including shower toilet.
- 5 Height-adjustable feet with brakes – for simple and sturdy anti-slip alignment.
